The Diwan of Savanur State;

Sir.

I have the honour to state for your information that a large number of the medicines in daily use have run short owing to a very large attendance of patients in the current official year. Even Sulphate of Quinine & Purgative powders &c have run short & unless these are replenished soon the public will suffer.

I would therefore request you kindly to obtain the sanction for an amount of Rs 200/- so that I might

order them from Bombay as early as possible. The increased expenditure would of course be charged to the next year.

In the event this letter is to be forwarded on for sanction I would request to be kindly informed whether I can order the drugs, in anticipation of sanction, to avoid delay.

Sir,

I respectfully beg to bring to your kind notice the fact that I have been serving in this Dispensary for the last 21/2 years during which time, I beg leave to say that I was regular in my attendance and that I faithfully discharged the duties entrusted to me. I am sorry, however, to add that I have not been fortunate enough to secure an increase to my salary even once during that Period. I request therefore, and earnestly hope that you will be pleased to grant me some promotion.

I beg to remain,

Sir,

Dharwar 19th April 1915

From

Mr. V. N. Kulkarni

Veterinary Assistant Dharwar

To

The Superintendent C. V. D.

Bombay Presidency.

Poona.

Sir,

With reference to your endorsement no 1837 dated 13th. March 1915, I have the honour to State that I reported myself for duty to the Diwan of Gavanur, on the 24th March 1915, and was relieved on the 15th instant after office hours.

Rinderpest.

Rinderpest was prevalent in the town of Gavanur for 2 or 3 months and carried away about 200 heads of cattle. The Veterinary help was received at the 11th hour when the disease was quite in its decline.

I could inoculate only 342 cattle against the disease, the work being handicapped for want of Serum from 28th March to 8th April 1915 during which period I advised treatment to all kinds of Sick animals and many cattle and horse owners took advantage of the opportunity. The number of cattle in the town is 2880, and no account of animals affected by and

and died of rinderpest was kept.

The cattle are generally kept in very good condition and are of deshi breed of average type and cross breed between deshi and Amrit Mahal (Mysore) known as Mudla which is the best type of cattle to be found here.

Breeding of cattle is carried on, on small scale by some cultivators and I think there is much scope for this branch of work here. There is one Chenabasappa Hanveri who told me that he had kept 30 cows in Alliporce Kavala, which is a grazing land in British dominions for breeding purpose. The grazing, green and dry Suffices.

Suffices for 10 months and the cows are fed on Kadabi ele for 2 months. I was also told by the Diwan of that the Nabab of Savanur wishes to open a Small cattle breeding farm in his State.

The Diwan has expressed his willingness to propose an annual contribution of Rs 100/- from the State treasury towards Veterinary Dispensary fund Dharwar, if immediate Veterinary aid is made available to the State Villagers when called for.

I have the honour to be,

Sir

Your most obedient Servant
